

I vociferously oppose the misguided and self-serving attempts by the NAB, in particular, their petition 04-160, seeking to curtail satellite radio. I am a subscriber, and obtain a great deal of enjoyment from my subscription. I can well understand that the NAB feels threatened; the sat. radio is far superior! Let the other broadcasters improve their product, rather than lobbying vs. sat. radio! I urge you to reject their petition. A. Lewis, MD
